Encouraging News from the Bible Society:

The Quiet Revival shows that men (13 per cent) are more likely to attend church than women (10 per cent). And as well church decline being reversed, **the Church is also becoming more ethnically diverse**, with one in five people (19 per cent) coming from an ethnic minority. Close to half of young Black people aged 18–34 (47 per cent) are now attending church at least monthly, according to *The Quiet Revival*.

It's also great to see that Bible reading and confidence in the Bible have increased as well as church growth. Some 67 per cent of churchgoing Christians read the Bible at least weekly outside church.
